House Refuses to Concur in Senate Amendments; Wishes to Quit.

Phoenix, Ariz, June 13.—Substitute issues bill No. 1, the land code, is in onference. As expected, the house reused to concur in a majority of the senate amendments. It did not like he senate's change in the personnel of the land department. It did not like he changes the senate made in the yatem of appraising land and improvements, which the house had adopted fier many weary days of debate and fecusion. Nor did the house approve of the senate's requirement that the and commissioner appoint his office elp with the consent and advice of he department.

Coldwater, Campbell and Martin are Coldwater, Campbell and Martin are

e senate conferes, while Claypool, anagan and Goodwin represent the Though the differences between the on houses are wide, there is every ospect that an agreement will be ached within a day or two. Once e land bill is disposed of, the legisture may adjourn at almost any lute.

initure may adjourn at almost any minute.

The lassitude expected by everyone as soon as the hot days of summer came on is now plainly apparent. There is an evident desire on the part of legislators to avoid disputes which they would have gloried in a month ago. They are more willing to accept the ideas of each other, to compromise, than they were before summer weather made legislating such an uncomfortable lob, even at \$7 a day.

Any objection to sine die adjournment will come from the house. The senate has sent over a prohibition bill and coltar's irrigation district bill, and has nothing of any importance before it at this time. The house still has the minere hospital bill to pass and the department of labor are emough to keep the house busy at least two weeks longer.

Many Excer to Quit.

In both houses there are a number of the content of the power of the minerer of the content.

In both houses there are a number of members who will be willing to drop everything else and go home as soon as the land code is adopted. They may outnumber, by the middle of next week, those who want to stay and dispose of all the impurtant items in the governor's call.

Colter's irrigation bill was ones defeated, reconsidered, and sent to the irrigation committee for amendment. When it was placed on third reading the second line it was passed without a dissenting vote.

Grahum's bill raising the salary of the Cochise county sheriff \$50 a month

a dissenting vote.

Graham's bill raising the salary of the Cochise county sheriff \$50 a month was ruthlessly slaughtered in the senate. The judiciary committee could not find where it was included in the sovernor's call.

Senator Karns had better luck with his Santa Crux county salary bill. This is the measure which gives the superfor court clerk \$600, the treasurer \$100 a year for extra help. In addition it gives each supervisors \$100 a year for extra help. In addition it gives each supervisor not to exceed \$30 a month for traveling expenses. Karns, in committee of the whole, explained that Sania Crux is shortly to issue \$200,000 worth of road bonds and the supervisors will have to do a great deal of traveling to see that the proceeds are broperly spout. His bill was sent to the style and revision committee and will come up for second reading in a day or two.

In the course of the debate and severely criticised the present system of having county salaries raised and lowered by the logislature. He suggested an amendment to the Karns will providing that aft proposed raises shall be passed upon first by the supervisors and then submitted to the people at the following general election. He will present this amendment in written form when the Santa Cruz bill is on second reading.

d reading. Senate Has Extended Debate.

Seaste Has Extended Debate.

Seaste Has Extended Debate.

The senate engaged in another extended debate over Colter's resolution construing the statute governing the state department of the samual road fund available July instead of in January, after taxes are collected. With films, Goldwater and Staples opposed, the resolution was finally engaged and sent to the house.

State engineer Lamar Cobb has been drawing on his fund at the beginning of such fiscal year, and the former treasurer registered his warrants without odestion. Simms, the present treasurer, questioned the legality of this proceeding and asked Cobb to have the epislature pass a resolution construing the statute. Stapley and Goldwater, the banker senators, denounced as bad business policy the plan of spending money before it is in the treasurer. Engineer Cobb is particularly needy of funds this year to repair roads and bridges washed out in Navalo and Apache counties, and to finish work undertaken in other counties.

Without recommendation the county offals committee returned the invitation of the citicens of Prescott to the legislaure to finish the present seasion in that city. Without objection, the legislaure to finish the present seasion in that city. Without objection, the legislaure to finish the present seasion in the invitation, but declining it with regret. Probably nothing more will be heard of this legislature meeting in Prescott.

After nearly three days of decussion the house passed the Briscoe miners

Present:
